## Student Research Presentation

Welcome to the Smart Healthcare Research Showcase! We invite you to present your research in the dynamic field of smart healthcare. Smart healthcare merges technology and healthcare, redefining patient care, diagnostics, and health management. Your work is integral to this transformation, and this is a platform for YOU to showcase your research endeavors aligned with smart healthcare. If you want to present the findings of your preceding smart healthcare research, scan the QRcode for further information now!

Welcome to join us!

Organizer: National Taiwan University APMSS Students' Association
